

Should I report suspicious activity that I observe?

Absolutely. Officers cannot be everywhere at once. The Police Department depends on citizens to report crimes or suspicious activity. The dispatcher who takes your call will ask questions about the activity, and ask for descriptions of the people or vehicles involved. You also may be asked if an officer or detective may contact you to follow up. Please be assured that in all cases we will make every effort to protect your confidentiality, and require minimal involvement by you, the citizen, in any criminal case.
